Agreement that we would meet with the Health Care Committee with the hope of becoming a sub committee Suggestions also that we merge with the Hearing Committee.

The VIP Committee has in the past had a board meeting on the first Tuesday, a Round Table on the second Tuesday, A Book Club on the third Monday, and if a speaker or program was developed on the fourth Tuesday in the Auditorium

Because of resignations, death, relocations the committee has not been full active We have had two presentations: Anne with her dog, and a rep from Kings Point who works with blind people as they manage their way in public Another possibility is in the works.

But the group needs leadership and is not functioning as it has in the past.
