Meeting called to order at 10:33am

OPEN BUSINESS:

Intellectual Learning Programs: Grad School Committee is making some revisions to the GSS program to be able to offer classes through-out the entire year. The Activities department will continue to promote and support the GSS program; as well as offer some supplementary learning programs throughout the year. Resident feedback for suggested programs includes: Philip Leto Lectures, History (Industrial age, computers age, etc), Universe, Planets, current and future predictions based on the evidence. The "Study Panel" group hopes to offer a "Great Books" session this summer.

Auditorium A/V System: On-going advertisement for volunteers to join/form an A/V Tech Committee resulted in only one person expressing interest.

Karaoke Club: Attendance has dropped off and is primarily attended by outside guests. The program will be permitted to continue an additional 90 days to increase resident attendance. If resident attendance does not improve and outnumber outside guests, the program will be discontinued.

Jam Session Club: The new club has been approved by the Activities Committee and will commence on the 4th Monday of the month at 7pm in the Auditorium.

Auditorium: Angie had a meeting with Suzy to discuss moving all major events from the Atrium to the Auditorium moving forward. Due to higher attendance, there is not enough seating in the Atrium. Monthly Mix & Mingles and most POP- UP Parties will remain in the Atrium.

Midwinter: GVT Morning Mimosa & Music event: Reservations are required by ALL residents (Plaza and GVT) to attend this event. Reservations are necessary in order to provide enough beverages and chairs for seating.

Meeting ended at: 11:28am

Submitted by the Activities Department staff on behalf of Secretary, Sue Schultz in her absence.
